## Upward Movement Comes to Stop

No Show of Enthusiasm, and a Poor Market for Profit-Taking.

TEW YORK, June 9 .- The light speculation for an advance in prices was somewhat discouraged today, and gave little show of enthusiasm. The poor market afforded for taking profits yesterday afternoon served to discredit the upward movement.

London gave some upward impulse to prices early in the day, and took stocks here and there, until they reached the London parity, when the foreigners turned sellers again. London was said to be somewhat disappointed over the failure to reduce the discount rate of the Bank of England. But the statement of the bank left no room for anxiety over the financial situation in London, the \$2,00,000 buildon increase being accompanied by a loan contraction of over \$1. come, bringing the proportion of reserve

co.,000, bringing the proportion of reserve to liability to over 50 per cent. At the same time the Bank of France showed a carther rise in gold holdings of over 1500,000 with a reduction of over \$23,000,000 in its bills discounted. It was not surprising, therefore, that a violent advance in the sterling rate at Paris should reflect the turn in the current of the stream of capital awaiting French capital again. The sterling rate eased here aithough an additional consignment of \$2.697,000 in Japanese gold striving in San Francisco was made available to New York bank reserves by telegraph. The result is something like a redundancy of capital at the great financial centers of the world, with a corresponding apathy of speculative and even of investment demand, which seems to point to a world-wide cause. Here in New York the hall in the advancing tendency of prices throws the market back into an apathetic condition.

ondition.

or was further discussion of the sites of production and consumption on, which made their appearance vestay just before the close of the stock ket. The shrinkage in consumption on is so generally accepted as highly affected of business conditions in generally accepted as business to discussion was bound to exame influence on speculative sential.

in Colorado.

There was some investment absorption of well-secured bonds, but weakness among speculative issues made the price movement irregular. Total sales, par while, \$1.00,000 United States 2s declined are result on call.

### "FINE OUTLOOK FOR SILVER. + New York ...... 50½c + + New York exchange .... H.3@4.3

Grain Dealers' Picnic on July 1-First Canteloupes Are in the Market.

66N EVER before in the history of the State has Utah had such crops as she will have this year. Grain, vegetables and fruit, wherever I went, I saw the most splendid prospects for a bumper harvest." T. J. Hall of San Francisco, who has been traveling through not only Utah and Idaho for the last few months, but over the whole Northwestern agricultural districts, is a man who gives expert opinion in these words that he told a Tribune man at the Kenyon hotel last night. Mr. Hall is a member of one of the largest commission houses on the Pacific coast, California, and besides this has a large export trade to the Orient.

In equally glowing terms did be express himself concerning the crops in Eastern Oregon and Washington. "There is still tains; the irrigating canais are full up to the tops of the banks, the reservoirs are

tains; the irrigating canais are full up to the tops of the banks, the reservoirs are full and likely to remain so. The irrigation projects have been stimulating the farmers to do planting and laying out to an extent they never contemplated before. In the regions of dry farms the fortuitous weather has been such as to bring the grain and alfalfa to a fine condition.

"In southern Utah, whence I have just come, I found all the farmers making preparations in advance for shipping their fruit up to Sait Lake, and the quantity as well as the quality of this fruit will open your eyes."

At the meeting of the Grain-Dealers' association yesterday afternoon the only change made was a 10-cent reduction on cornacal in small sacks. This brings the figure down to \$1.90 per hundred. The chief business transacted at this meeting was the perfecting of arrangements for the plente of the association which will take place at Lagoon on Friday, July 1. On that date all the commission houses belonging to the association will be closed all day. More than \$60 expect to go out to the resort, besides outsiders. There will be a big spread and all kinds of fun. Cantaloupe melons have made their first appearance for this year Only a few were to be found in town yesterday, and the price was \$3.25 a dozen. Those retailers who are selling oranges at 2½ cents a pound must be of a charitable disposition. Considering that the wholesale price of oranges is upwards of \$2.55 a case, and that the average weight is sixty-five pounds to the case, excluding the weight of the case, the net loss to those who are making this price is about 1½ cents a pound. It must be said, however, that these charitable persons are hiding their lights under a very thick bushel.

Bass Will Be Late This Year.

Bass Will Be Late This Year.

Utah black bass will be later than usual this year on account of the high waters that prevail everywhere. The close time for this fish and mountain troot expires on the lath of this month, but the general opinion exists among the dealers that they will not have any large quantities for their customers until a week at least after that date.

Produce continues to come in from the country in increasing quantities. Utah new potatoes are not going as quickly as they might, as the retailers are having to pay from 6 to 8 cents a pound to the producer for them, whereas the imported variety can be had for 3 cents a pound wholesale.

Lead was steady at tils 138 3d in London and was also unchanged locally, where it closed at \$4.5564.55.
